#### A TRIBUTE TO ADMIRAL SCHLEY.

THE closing address of Counsel Rayner, in behalf of Admiral Schley, before the Court of Inquiry, was much more than a mere argument. It was a splendid tribute to that great naval hero, and voiced the gratitude and admiration of the American people for that sorely abused, yet generous and noble man. The address was not only a masterly summing up of the evidence in the case, but also an elequent oration, touching all heart not blackened by malice, and withering with its lofty scorn the envious and malignant cabal that has persistently sought to rob Admiral Schley of the glory that is

The spontaneous exhibition of friendly regard for Schley by Admiral Dewey and the other members of the Court at the close of Rayner's address was striking evidence of the power of the orator. And it clearly indicated the nature of the findings which that tribunal will make. The triumph of Schley and the discomfiture of his detractors are well assured.

What would it matter had Schley in some small things technically disregarded orders, or departed from the regulations of the naval service? His magnificent conduct and glorious victory at Santiago would wipe out a host of transgressions. He will ever rank in history with Farragut and Dewey as one of the great naval commanders of the age.
